

Shattering Ceilings is a **Bold** Goal. We Can Achieve It ... **Together!**

Meet **Aliyah**

College Bound Girls Graduate

I was uncertain about how, or if I could attend college. *College Bound Girls* was a great program for me. It provided me with a great support system, and I learned skills that I will be able to use both in college and when I start my career. I've always believed as a young black lady I could make something of myself, *now* I am certain I will!

Greetings:

YOU ARE MAKING AN IMPACT! Aliyah, graduated from high school and is heading to college because of you. BAGC believes that unwavering support and training coupled with access to resources, networking, and goal planning paves the road to college. Through BAGC's 2021/22 **College Bound Girls** program, 10 girls received crucial training and assistance with scholarship application, access to networking, and much more. The gameplan is to develop confident, empowered, and employable young women. Your financial partnership provides girls with the foundational skills that are essential in college *and* today's workplace – **THANK YOU** for your support!

While BAGC is already providing transformative programs - we believe we can do more! And **this is where you come in . . .** Community programs often play a brief role in the lives of program participants; when they leave the program, they are sent on their way to fend for themselves. The goal at BAGC is to send the graduates from our *College Bound Girls* program onto the next leg of their journey armed with the practical tools they need to successfully embark on their exciting adventure in college. What are these tools? **Laptops** and **college school supplies!**

\$1,000 will provide one MacBook

\$100 will provide two Backpacks

\$250 will provide Dorm Room Essentials

\$50 will provide School Supplies

Your gift can unleash the vast potential of Aliyah and other graduates of *College Bound Girls* and provide them with opportunities to improve their lives, further their education, and advance their career goals. You can help BAGC girls by equipping them for successful living, lifelong learning, and a career in our new economy. Like we said earlier, a **BOLD** goal that we can achieve **TOGETHER**. We're sending the girls to college in late August, so please give today, and again, we thank you for your partnership!

Regards,

Tiffany Harris,
Executive Director

P.S. Your gift today will help the girls find their future tomorrow!
